PROFESSIONAL SUMMARY

Third-year Computer Science Engineering student at MIT-WPU with strong foundations in Excel, Power BI, JavaScript, C, C++, Python, SQL, HTML, and CSS. Experienced in building data-driven systems through academic projects and certifications. Eager to contribute technical and analytical skills in a professional environment.

TECHNICAL SKILLS

Languages: C, C++, Python, SQL, HTML, CSS, JavaScript, Java

Tools: MS-Excel, Git, VS Code, Power BI, AWS, REST API

Databases: MySQL, MongoDB

Concepts: Data Structures, OOP, Data Analysis, Machine Learning, Deep Learning, Cloud Computing

EDUCATION

MIT World Peace University (MIT-WPU)	2023 – Present
<i>B.Tech, Computer Science Engineering</i> Pune, Maharashtra	
Loyola High School and Junior College	2021 – 2023
<i>Higher Secondary Certificate (HSC) – Science</i> Pune, Maharashtra	
- Secured Rank 3 overall in HSC Board Examinations. - Achieved the highest marks in Computer Science among all students.	
Loyola High School and Junior College	Until 2021
<i>Secondary School Certificate (SSC)</i> Pune, Maharashtra	

PROJECTS

Mood-Based Music Prediction <i>Python, Scikit-learn, NLP, Streamlit</i>	2026
- Built an ML-powered music recommendation system that classifies user mood from text input using NLP-based sentiment analysis and maps emotional states to curated music categories. - Designed an interactive Streamlit interface enabling real-time mood input and instant song recommendations.	
MediScan-AI <i>Python, TensorFlow, Scikit-learn, Flask</i>	2026
- Designed an AI-powered healthcare assistant that predicts preliminary diseases from user-reported symptoms using ML/DL classification models (TensorFlow, Scikit-learn). - Built a responsive Flask interface for real-time symptom input and health suggestions, reducing response time for basic health queries.	
Wheely – Smart Mobility Platform <i>Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, Apache Tomcat</i>	2026
- Developed a full-stack ride and vehicle management platform with booking, user authentication, and real-time tracking using JSP, Servlets and JDBC. - Built REST-style booking workflows and a responsive JSP-based vehicle rental UI for Wheely, improving booking management efficiency and streamlining the end-to-end vehicle reservation experience.	

CERTIFICATIONS

- Data Visualisation with Excel & Cognos – IBM
- MySQL Certification – 365Careers
- OCI in Generative AI – Oracle University

ACHIEVEMENTS

Elisabeth & Hildreth Noronha Scholarship for Academic Excellence. • Hack MIT-WPU 2024 Ideathon participant. • Smart India Hackathon 2024 & 2025 participant.
